## Frontend Developer | React & Next.js | Strong UI/UX Focus

Passionate Frontend Developer with hands-on experience building responsive, scalable web applications using ReactJS, Next.js, Tailwind CSS, and modern backend tools. Strong foundation in UI/UX principles and cross-functional collaboration in Agile teams. Currently seeking full-time or freelance opportunities to deliver polished frontend solutions and grow as a fullstack engineer.

## WORK EXPERIENCE

### ITBee Solutions • Ho Chi Minh • 04/2025 - 07/2025

#### Frontend Developer Intern • Internship

**Tech Stack:** ReactJS, Tailwind CSS, Redux, REST APIs

**Project:** Internal Company Management System

A platform to manage store inventory, employee attendance, and staff records.

#### Key Contributions:

- Built reusable and responsive UI components with **React** and **TailwindCSS**.
- Integrated REST APIs to enable real-time data updates for product and employee modules.
- Collaborated with backend and UI/UX teams to ensure a seamless, mobile-friendly experience.
- Fixed multiple frontend bugs and optimized component rendering for improved performance.

### FPT Software • Ho Chi Minh • 06/2023 - 12/2023

#### Front End Developer Intern • Internship

**Project:** E-learning Web Application

A responsive platform supporting multi-role users (students, instructors, admins).

#### Key Contributions:

- Enhanced mobile responsiveness and cross-device compatibility across key pages.
- Implemented accessibility features in collaboration with UX designers.
- Integrated APIs to display and manage course content dynamically.
- Collaborated in Agile sprints and participated in code reviews with senior engineers.

## EDUCATION

### BSc. In Software Engineering

FPT UNIVERSITY • GPA: 7.9 • 01/2025

50% Scholarship

## CERTIFICATIONS

### User Experience Research and Design • 08/2024

### Software Development Lifecycle Specialization • 05/2024

Coursera

## Web Design for Everybody: Basics of Web Development & Coding Specialization • 12/2023

Coursera

## Computer Communications Specialization • 09/2023

Coursera

## PROJECTS

### # Couple Rings – E-Commerce Wedding Ring Website • 08/2024 - 12/2024

Team of 5 (3 FE, 2 BE) | Role: Frontend Developer

**Tech Stack:** ReactJS, Redux, MUI, NestJS, Spring Boot

GitHub: <https://github.com/couple-rings>

A unique e-commerce platform where users can buy a once-in-a-lifetime wedding ring for their partner — focused on emotional experience and exclusivity.

#### Key Contributions:

- Designed responsive UI to support mobile and desktop users with personalized ring browsing and order flow.
- Implemented core features: custom ring design, refund handling, and role-based user access.
- Integrated RESTful APIs for real-time order processing and user data.
- Conducted UI testing to reduce bugs by 30% and collaborated with UX team to match market expectations.

### # Online Learning Platform (Udemy Clone) • 07/2023 - 12/2023

Team of 6 (3 FE, 3 BE) | Role: Frontend Developer

**Tech Stack:** ReactJS, Redux Toolkit, MUI, Bootstrap, .NET, SQL Server

A full-featured learning platform with dashboards for students, instructors, and admins.

#### Key Contributions:

- Built responsive user dashboards using **ReactJS, MUI**, and **Bootstrap**.
- Integrated REST APIs via **Axios** for course progress, enrollment, and payments.
- Managed state efficiently using **Redux Toolkit**, reducing unnecessary re-renders.
- Achieved a **Lighthouse score of 85+** through accessibility and performance optimization.
- Collaborated closely with backend to integrate auth and course management workflows.

### # Financial Management Website – Budget Buddy

Solo Project | Role: Fullstack Developer

Live Demo: [budget-buddy-bean.vercel.app](https://budget-buddy-bean.vercel.app)

GitHub (Frontend): [github.com/Bean281/budget-buddy-frontend](https://github.com/Bean281/budget-buddy-frontend)

GitHub (Backend): [github.com/Bean281/budget\\_buddy-backend](https://github.com/Bean281/budget_buddy-backend)

**Tech Stack:** Next.js, Tailwind CSS, NestJS, Prisma, PostgreSQL, Docker

A full-stack web app that helps users manage personal finances with flexible budgeting tools and visual insights.

#### Key Features:

- CRUD operations for payments, categories, and personalized spending plans.
- Interactive charts to visualize income and expenses across days, weeks, and months.
- Authentication system with secure login and protected routes.
- Built with **Next.js (frontend)** and **NestJS + Prisma + PostgreSQL (backend)**, containerized with Docker.
- Deployed on **Vercel** (frontend) and **Render** (backend), fully responsive across devices.

## SKILLS

**Frontend Development:** CSS, JavaScript, TypeScript, ReactJS, TypeScript, ReactJS, Next.js, Redux Toolkit, Tailwind CSS, Material UI (MUI)

**Backend & Database:** NestJS, Node.js (basic), Prisma ORM, PostgreSQL, MongoDB (basic), RESTful APIs

**CSS Frameworks & UI Libraries:** Tailwind CSS, MUI, Bootstrap

**Version Control & Collaboration:** Git, Github

**Project Management & Collaboration Tools:** Jira, Confluence

**Soft Skills:** Fast learner, team-oriented mindset, Good communication & collaboration, Strong problem-solving and attention to detail, UI/UX-focused development approach
